RE: Mechanical Lippage Tuning System

Dear Valued Customer,

MAPEI Corporation is pleased to recommend the Mechanical Lippage Tuning System (MLTS) for assisting in reduction or elimination of lippage on large format tile and thin-bodied porcelain installations.

This product has been tested by MAPEI's Technical Services Department and found to make a significant contribution to the installation of standard and thin thicknesses of large format tile or stone. We have determined that, when used as directed, the MLTS system does not contribute to voids under the tile as some had feared. In fact, with proper troweling techniques, greater coverage is achieved when the MLTS system is used and the system significantly reduces lippage on large format tile installations.

MAPEI recommends the usage of the Mechanical Lippage Tuning System in conjunction with the *following setting materials*:

- \* **Granirapid® System** (meets ISO 13007 C2FS2P2 and ANSI A118.4, A118.11 and A118.15)
- \* **Kerabond/Keralastic™ System** (meets ISO 13007 C2ES2P2 and ANSI A118.4, A118.11 and 118.15)
- \* **Ultraflex™ LFT Rapid** (meets ISO 13007 C2TFS1P1 and ANSI A118.4 and A118.11)
- \* **Ultraflex™ LFT** (meets ISO 13007 C2TES1P1 and ANSI A118.4 and A118.11)
- \* **MAPEI Ultralite™** (meets ISO 13007 C2TES1P1 and ANSI A118.4 and A118.11)
- \* **Ultraflex™RS** (meets ISO 13007 C2FP1 and ANSI A118.4 and A118.11)
- \* **MAPEI Ultralite™ Mortar** is Green Squared Certified, meeting the standards criteria of ANSI 138.1.

Please follow all manufacturers' recommended installation procedures and industry standards to ensure a successful installation. Refer to the most current technical data sheet for more detailed information regarding the use of MAPEI products. Technical data sheets and material safety data sheets are available on our website [www.mapei.com](http://www.mapei.com).

Please contact us if you have any questions regarding this matter.
